

```
Person p1 = new Person("Smith", "Amy");
Person p2 = new Person("Taylor", "Charlie");
```

```
p1.print();
p2.print();
```

Encapsulation

C++/Java

public
protected inside class & deriveds
private [default] ?

set/get is a bad habit ?

set breaks encapsulation!

	Class	Pkg	SubC	World
public	Y	Y	Y	Y
protected	Y	Y	Y	N
no modifier	Y	Y	N	N
private	Y	N	N	N
